English is an Indo-European language and belongs to the West Germanic group of the Germanic languages. Old English originated from a Germanic tribal and linguistic continuum along the Frisian North Sea coast, whose languages gradually evolved into the Anglic languages in the British Isles, and into the Frisian languages and Low German/Low Saxon on the continent.

Meara 1996 The dimensions of lexical competence The dimensions of lexical competence. 1: Introduction This paper deals with the idea of lexical competence, and how we can describe it.

### **The dimensions of lexical competence. 1: Introduction**

DiffÃ©rence is the observation that the meanings of words come from their synchrony with other words within the language and their diachrony between contemporary and historical definitions of a word. Understanding language, according to Derrida, requires an understanding of both viewpoints of linguistic analysis.

Linguistic forms. Lexical ambiguity is contrasted with semantic ambiguity. The former represents a choice between a finite number of known and meaningful context-dependent interpretations. The latter represents a choice between any number of possible interpretations, none of which may have a standard agreed-upon meaning.
