Background. Definition. ED is defined as the inability to attain and/or maintain penile erection sufficient for satisfactory sexual performance. 5 The Panel also endorses the Fourth International Consultation on Sexual Medicine's ED definition as the consistent or recurrent inability to attain and/or maintain penile erection sufficient for sexual satisfaction. 6

Neuromuscular Dysfunction of the Bladder and Urethra By Gerald W. Friedland and Inder Perakash
AT LEAST 25 million people in the United States suffer from neuromuscular dysfunction of the bladder and urethra.

Neuromuscular dysfunction of the bladder and urethra ...

Bladder dysfunction, which occurs in at least 80 percent of people with MS, happens when MS lesions block or delay transmission of nerve signals in areas of the central nervous system (CNS) that control the bladder and urinary sphincters.

Bladder Problems : National Multiple Sclerosis Society

Interstitial cystitis (IC), also known as bladder pain syndrome (BPS), is a type of chronic pain that affects the bladder. Symptoms include feeling the need to urinate right away, needing to urinate often, and pain with sex. IC/BPS is associated with depression and lower quality of life. Many of those affected also have irritable bowel syndrome and fibromyalgia.

C & P Exams. The C and P exam (Claims and Pension exams= CP exam) is one of the most important steps in the VA medical code process as all these claims all are medical claims and thus the CP exam is the VAs way to get more medical data€”so never miss the exam or VA will simply say that the patient missed the exam and deny the case.. Prior to the CP exam best to Do the following;
