Road Route from The Aravalies to Paradise Inn, Route Map ...

applications is the discovery of the shortest route between two points of a network. It could arise for example in a traffic routing problem. Finding the shortest route is simple enough in concept, but in large networks the calculation could become clumsy and much effort could be wasted. The thing to avoid doing is evaluating all alternative routes.

Finding the shortest route between two points in a network

Shortest route problem Find the shortest route from the starting point (p1) to the ending point (p6). Start End 15 13 11 9 16 12 4 17 14 p1 P2 P3 P4 P5 P6 1. Set optimization variables ... To make sure the route is a connected path from the starting point to the ending point, we need to following constrains:
